

## **The BUMATECH Fairs in Bursa bring together future manufacturing technologies**

BUMATECH, which brings together recent innovations in machine technology, will open its doors in Bursa from November 28 to December 1, 2024. Participants will witness pioneering developments in a variety of sectors, including sheet metal processing, metal processing and automation technologies. At the fairs showcasing Türkiye's power in the machinery sector, the innovative technologies of leading companies in the industry will be featured and they will be recognized as a platform for directing the industry in growing the companies' competitive strength in the global market.

Ranking among the pioneering fairs for machinery technologies and the industry, **BUMATECH – Bursa Machine Technologies Fair** is organized under the leadership of Tüyap Fair Organization Group with the collaboration of Bursa Chamber of Commerce and Industry, Machine Tools Industrialists and Businessmen Association (TİAD) and Machinery Manufacturers Association (MİB). This large event, held for the 22nd time, offers unrivaled opportunities for both local and international participants. The fairs, which will feature metal processing technologies, sheet metal processing, and automation, will showcase recent technological solutions, bringing industry professionals together.

BUMATECH, whose number of foreign visitors is increasing exponentially and which attracts attention for its success, is ready to mark the industry in the last quarter with its global promotional activities. While the fairs provide a platform for establishing strong relationships and capturing new business opportunities, they will also help companies take an active part in the competitive environment and increase their market share through innovative approaches.

### **BUMATECH Shows its Strength Once Again**

As in previous years, the fairs will provide significant opportunities for new collaborations and business deals to its participants in 2024. Gaining strength by adapting to the changing dynamics of the machinery industry, BUMATECH continues to direct the industry with its broad and dynamic participant audience at both local and international platform. This major organization will contribute to Türkiye's machinery exports and increase its global market activities.

### **Three Giant Fairs in One**

The **Bursa Metal Processing Technologies Fair, Bursa Sheet Metal Processing Technologies Fair** and **Bursa Automation Fair** organized within the scope of BUMATECH offers a large product and service range to participants and visitors. The fairs, which have received

industry recognition for their numerous innovations ranging from metal processing machines to robotic technologies, electrical and electronic solutions to automation systems, will welcome visitors in 7 halls.

### **Fair Visiting Hours and Participant Countries**

Industry professionals are welcome to attend the fair on November 28-30, 2024, from 10:00 to 18:00, and on the last day of the exhibition, December 1, Sunday, from 10:00 to 17:00. BUMATECH, which has attracted great interest from visitors from countries such as Algeria, Morocco, Egypt, Romania, the Balkans, Germany, Russia, and Poland, will open its doors to international trade in Bursa this year, reflecting the Turkish machinery sector's export success.

### **The Address for Innovations in the Industry**

The fairs will display a wide range of products, including laser technologies, pipe bending machines, CNC machinery, cutting tools, software and digital technologies, automation systems, welding and robotic systems, and plant equipment. As of 2024, while fairs have been the most successful area for the machinery manufacturing industry, new investment and collaboration opportunities in Bursa continue to grow, demonstrating Türkiye's strength in the machinery sector. BUMATECH, known for its metal processing and sheet metal processing technologies, will welcome visitors with its wide range of products and diverse businesses.

**About TÜYAP:** *Tüyap was founded by Bülent Ünal in 1979 as the first fair organization company of Türkiye. Tüyap has led the development of fair organization sector in Türkiye, organizing numberless fairs at home and abroad in the past 45 years. At these fairs, it served more than 350 thousand companies from many countries and hosted more than 70 million visitors. Tüyap, which organizes regular specialized fairs with its 5 fair centers in Türkiye and its international offices in 6 countries, also makes long-term collaborations with more than 100 professional organizations with its highly qualified workforce. The company, which organized the first Turkish export products fairs in China, Russia and Africa, still organizes participation of Turkish companies in 10 foreign fairs every year on average. Tüyap, the only private sector fair organization company with its own fair center in Türkiye, continues to organize hybrid fairs by mobilizing its digital resources.*
